

CasinoWar Stage 1

Who uses it?

People who want an online version of Casino War.

Why does he use it? What is he trying to accomplish when he uses it?

- He wants to
 - Experience the thrill/fun of gambling
 - Make money

What functions does your software provide to the user that help him achieve his goal(s)?

- Our software provides easy access to Casino War online instead of having to visit a Casino
- The player has the ability to set a limit on his losses, ensuring the gambling does not get out of control.

How does he use it? What steps does he go through in order to achieve his goal(s)?

What are the workflows he progresses through when using it?

- He uses it by first providing a balance and a betting limit (which will automatically cut off all gameplay when reached).
- After this he can enter a game and dictate his bet amount each hand.
- In order to be successful, he has to defeat the house advantage/odds and win hands.
- He will be able to check his career stats (balance, total hands played, and total win percentage).
